Company No.: 424086 X

P.I.E. INDUSTRIAL BERHAD
(Incorporated in Malaysia)

DIRECTORS' REPORT

The directors of **P.I.E. INDUSTRIAL BERHAD** have pleasure in submitting their report and the audited financial statements of the Group and of the Company for the financial year ended December 31, 2011.

PRINCIPAL ACTIVITIES

The Company is principally involved in investment holding and provision of management services. The principal activities of the subsidiaries are disclosed in Note 18 to the financial statements. There have been no significant changes in the nature of the principal activities of the Group and of the Company during the financial year.

RESULTS OF OPERATIONS

The results of operations of the Group and of the Company for the financial year are as follows:

	The Group RM	The Company RM
Profit for the year	38,076,495	13,565,988

In the opinion of the directors, the results of operations of the Group and of the Company during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature.

DIVIDENDS

During the current financial year, a special dividend of 23 sen gross per ordinary share, less tax, and a first and final dividend of 12 sen gross per ordinary share, less tax, amounting to RM11,036,602 and RM5,758,227 respectively, were declared and paid in respect of the previous financial year.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year other than those disclosed in the financial statements.

ISSUE OF SHARES AND DEBENTURES

The Company has not issued any new shares or debentures during the financial year.

SHARE OPTIONS

No options have been granted by the Company to any parties during the financial year to take up unissued shares of the Company.

No shares have been issued during the financial year by virtue of the exercise of any option to take up unissued shares of the Company. As of the end of the financial year, there were no unissued shares of the Company under options.

OTHER STATUTORY INFORMATION

Before the statements of comprehensive income and statements of financial position of the Group and of the Company were made out, the directors took reasonable steps:

(a) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts, and have satisfied themselves that there are no known bad debts to be written off and that adequate allowance had been made for doubtful debts; and

(b) to ensure that any current assets which were unlikely to realise their book values in the ordinary course of business have been written down to their estimated realisable values.

At the date of this report, the directors are not aware of any circumstances:

(a) which would require the writing off of bad debts or render the amount of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or

(b) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or

(c) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; or

(d) not otherwise dealt with in this report or financial statements which would render any amount stated in the financial statements of the Group and of the Company misleading.

At the date of this report, there does not exist:

(a) any charge on the assets of the Group and of the Company which has arisen since the end of the financial year and secures the liability of any other person; or

(b) any contingent liability of the Group and of the Company which has arisen since the end of the financial year.

No contingent or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

In the opinion of the directors, no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of operations of the Group and of the Company for the succeeding financial year.

DIRECTORS

The following directors served on the Board of the Company since the date of the last report:

Ahmad Murad Bin Abdul Aziz
Mui Chung Meng
Chen, Chih-Wen
Cheng Shing Tsung
Cheung Ho Leung
Loo Hooi Beng
Khoo Lay Tatt

DIRECTORS' INTERESTS

The shareholdings in the Company and in related companies of those who were directors at the end of the financial year, as recorded in the Register of Directors' Shareholdings kept by the Company under Section 134 of the Companies Act, 1965, are as follows:

	No. of ordinary shares of RM1 each			
Shares in the Company	**Balance as of 1.1.2011**	**Bought**	**Sold**	**Balance as of 31.12.2011**
Direct interest:				
Ahmad Murad Bin Abdul Aziz	1	-	-	1
Cheng Shing Tsung	10,000	-	-	10,000
Indirect interest:				
Khoo Lay Tatt	-	3,000	-	3,000

DIRECTORS' BENEFITS

Since the end of the previous financial year, none of the directors of the Company has received or become entitled to receive any benefit (other than those disclosed as directors' remuneration in the financial statements) by reason of a contract made by the Company or a related corporation with the director or with a firm of which he is a member, or with a company in which he has a substantial financial interest except that certain directors received remuneration from related corporations in their capacities as directors or executives of those related corporations.

During and at the end of the financial year, no arrangement subsisted to which the Company was a party whereby directors of the Company might acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

HOLDING COMPANIES

The Company's immediate and ultimate holding companies are Pan Global Holding Co. Ltd., a corporation incorporated in British Virgin Islands and Pan-International Industrial Corp., a corporation incorporated in Taiwan respectively.

AUDITORS

The auditors, Messrs. Deloitte KassimChan, have indicated their willingness to continue in office.

Signed on behalf of the Board

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
P.I.E. INDUSTRIAL BERHAD
(Incorporated in Malaysia)

Report on the Financial Statements

We have audited the financial statements of P.I.E. Industrial Berhad, which comprise the statements of financial position of the Group and of the Company as of December 31, 2011, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 8 to 71.

Directors' Responsibility for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements that give a true and fair view in accordance with Financial Reporting Standards and the Companies Act, 1965 in Malaysia and for such internal control as the directors determine are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

DELOITTE KASSIMCHAN

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
P.I.E. INDUSTRIAL BERHAD
(Incorporated in Malaysia)

Opinion

In our opinion, the financial statements have been properly drawn up in accordance with Financial Reporting Standards and the Companies Act, 1965 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Company as of December 31, 2011 and their financial performance and cash flows for the year then ended.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

(a) in our opinion, the accounting and other records and the registers required by the Act to be kept by the Company and its subsidiaries of which we have acted as auditors, have been properly kept in accordance with the provisions of the Act;

(b) we have considered the accounts and auditors' reports of the subsidiaries, of which we have not acted as auditors as mentioned in Note 18 to the financial statements, being accounts that have been included in the financial statements of the Group;

(c) we are satisfied that the accounts of the subsidiaries that have been consolidated with the financial statements of the Company are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group, and we have received satisfactory information and explanations as required by us for these purposes; and

(d) the auditors' reports on the accounts of the subsidiaries were not subject to any qualification and did not include any adverse comment made under Section 174(3) of the Act.

Other Reporting Responsibilities

The supplementary information set out in Note 41 to the financial statements is disclosed to meet the requirement of Bursa Malaysia Securities Berhad and is not part of the financial statements. The directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1 "Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements" as issued by the Malaysian Institute of Accountants ("MIA Guidance") and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.

DELOITTE KASSIMCHAN

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011

1. GENERAL INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia and listed on the Main Market of Bursa Malaysia Securities Berhad.

The Company is principally involved in investment holding and provision of management services. The principal activities of the subsidiaries are disclosed in Note 18. There have been no significant changes in the nature of the principal activities of the Group and of the Company during the financial year.

The registered office of the Company is located at 57-G, Persiaran Bayan Indah, Bayan Bay, Sungai Nibong, 11900 Penang, Malaysia.

The principal place of business of the Company is located at Plot 4, Jalan Jelawat Satu, Kawasan Perusahaan Seberang Jaya, 13700 Seberang Jaya, Seberang Perai, Penang, Malaysia.

The Company's immediate and ultimate holding companies are Pan Global Holding Co. Ltd., a corporation incorporated in British Virgin Islands and Pan-International Industrial Corp., a corporation incorporated in Taiwan respectively.

The financial statements of the Group and of the Company were authorised by the Board of Directors for issuance in accordance with a resolution of the directors on March 6, 2012.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the Group and of the Company have been prepared in accordance with Financial Reporting Standards ("FRS") and the provisions of the Companies Act, 1965 in Malaysia.

Adoption of new and revised Financial Reporting Standards

In the current financial year, the Group and the Company have adopted all the new and revised Standards and Issues Committee ("IC") Interpretations issued by the Malaysian Accounting Standards Board ("MASB") that are relevant to their operations and effective for the Group's financial period beginning on January 1, 2011 as follows:

FRS 1	First-time Adoption of Financial Reporting Standards (revised)
FRS 1	First-time Adoption of Financial Reporting Standards (Amendments relating to limited exemption from Comparative FRS 7 Disclosures for First-time Adopters)
FRS 1	First-time Adoption of Financial Reporting Standards (Amendments relating to additional exemptions for first-time adopters)
FRS 2	Share-based Payment (Amendments relating to group cash-settled share-based payment transactions)
FRS 2	Share-based Payment (Amendments relating to scope of FRS 2 and revised FRS 3)
FRS 3	Business Combinations (revised)

FRS 5	Non-current Assets Held for Sale and Discontinued Operations (Amendments relating to plan to sell controlling interest in a subsidiary)
FRS 7	Financial Instruments: Disclosures (Amendments relating to improving disclosures about financial instruments)
FRS 127	Consolidated and Separate Financial Statements (revised)
FRS 132	Financial Instruments: Presentation (Amendments relating to classification of rights issue)
FRS 138	Intangible Assets (Amendments relating to additional consequential amendments arising from revised FRS 3)
Improvements to FRSs 2010	
IC Interpretation 4	Determining whether an Arrangement contains a Lease
IC Interpretation 9	Reassessment of Embedded Derivatives (Amendments relating to additional consequential amendments arising from revised FRS 3)
IC Interpretation 12	Service Concession Arrangements
IC Interpretation 16	Hedges of a Net Investment in a Foreign Operation
IC Interpretation 17	Distributions of Non-cash Assets to Owners
IC Interpretation 18	Transfer of Assets from Customers

The adoption of these new and revised Standards and IC Interpretations have not materially affected the amounts reported on the financial statements of the Group and of the Company.

On November 19, 2011, the MASB issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards Framework (MFRS Framework) in conjunction with its planned convergence of FRSs with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board on January 1, 2012.

The MFRS Framework is a fully IFRS-compliant framework, equivalent to IFRSs which is mandatory for adoption by all Entities Other than Private Entities for annual periods beginning on or after January 1, 2012, with the exception for Transitioning Entities. Transitioning Entities, being entities which are subject to the application of MFRS 141 Agriculture and/ or IC Interpretation 15 Agreements for the Construction of Real Estate are given an option to defer adoption of the MFRS Framework for an additional one year. Transitioning Entities also includes those entities that consolidates, equity accounts or proportionately consolidates an entity that has chosen to continue to apply the FRS Framework for annual periods beginning on or after January 1, 2012.

Accordingly, the Group and the Company which are not Transitioning Entities will be required to apply MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards (MFRS 1) in their financial statements for the financial year ending December 31, 2012, being the first set of financial statements prepared in accordance with the new MFRS Framework. Further, an explicit and unreserved statement of compliance with IFRSs will be made in these financial statements.

The Group and the Company are currently assessing the impact of adoption of MFRS 1, including identification of the differences in existing accounting policies as compared to the new MFRSs and the use of optional exemptions as provided for in MFRS 1. As at the date of authorisation of issue of the financial statements, accounting policy decisions or elections have not been finalised. Thus, the impact of adopting the new MFRS Framework on the Group's and the Company's first set of financial statements prepared in accordance with the MFRS Framework cannot be determined and estimated reliably until the process is complete.

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared on the historical cost basis, unless otherwise indicated in the accounting policies stated below. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

Subsidiaries and basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Group (its subsidiaries). Control is achieved where the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Subsidiaries are consolidated using the purchase method of accounting, except for certain business combinations with agreement dated before January 1, 2006 that meet the conditions of a merger as set out in FRS 122_{2004} Business Combinations, which were accounted for using the merger method.

The Group has taken advantage of the exemption provided by FRS 3 to apply this standard prospectively. Accordingly, business combinations entered into prior to January 1, 2006 have not been restated to comply with this standard.

When the merger method is used, the cost of investment in the Company's books is recorded at cost. On consolidation, the cost of the merger is cancelled with the values of the shares received. Any resulting credit difference is classified as equity and regarded as a non-distributable reserve. Any resulting debit balance is adjusted against any suitable reserve. The results of the subsidiaries being merged are presented as if the merger had been effected throughout the current and previous financial years.

The financial statements of all subsidiaries are consolidated under the purchase method except for the financial statements of Pan-International Electronics (Malaysia) Sdn. Bhd. and Pan-International Wire & Cable (Malaysia) Sdn. Bhd. which are consolidated under the merger method.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between:

(a) the aggregate of the fair value of the consideration received and the fair value of any retained interest; and

(b) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests.

Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under FRS 139 Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

Subsidiaries

Investment in subsidiaries which are eliminated on consolidation, are stated at cost less impairment losses, if any, in the Company's separate financial statements.

Business combinations

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the fair values (at the date of exchange) of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

Where applicable, the consideration for the acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments. All other subsequent changes in the fair value of contingent consideration classified as an asset or liability are accounted for in accordance with relevant FRSs. Changes in the fair value of contingent consideration classified as equity are not recognised.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under FRS 3 (revised) are recognised at their fair value at the acquisition date, except that:

(a) deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with FRS 112 Income Taxes and FRS 119 Employee Benefits respectively;

(b) liabilities or equity instruments related to the replacement by the Group of an acquiree's share-based payment awards are measured in accordance with FRS 2 Share-based Payment; and

(c) assets (or disposal groups) that are classified as held for sale in accordance with FRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date, and is subject to a maximum of one year.

Interests in joint ventures

A joint venture is a contractual arrangement whereby the Group and other parties undertake an economic activity that is subject to joint control (i.e. when the strategic financial and operating policy decisions relating to the activities of the joint venture require the unanimous consent of the parties sharing control).

When a group entity undertakes its activities under joint venture arrangements directly, the Group's share of jointly controlled assets and any liabilities incurred jointly with other venturers are recognised in the financial statements of the relevant entity and classified according to their nature. Liabilities and expenses incurred directly in respect of interests in jointly controlled assets are accounted for on an accrual basis. Income from the sale or use of the Group's share of the output of jointly controlled assets, and its share of joint venture expenses, are recognised when it is probable that the economic benefits associated with the transactions will flow to/ from the Group and their amount can be measured reliably.

Joint venture arrangements that involve the establishment of a separate entity in which each venture has an interest are referred to as jointly controlled entities. The Group reports its interest in jointly controlled entity using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for in accordance with FRS 5 Non-current Assets Held for Sale and Discontinued Operations. Under the equity method, the investment in the jointly controlled entity is carried in the statement of financial position at cost adjusted for post-acquisition changes in the Group's share of net assets of the jointly controlled entity. The Group's share of the net profit or loss of the jointly controlled entity is recognised in the statement of comprehensive income.

Any goodwill arising on the acquisition of the Group's interest in a jointly controlled entity is accounted for in accordance with the Group's accounting policy for goodwill arising in a business combination.

When a group entity transacts with a jointly controlled entity of the Group, unrealised profits and losses are eliminated to the extent of the Group's interest in the joint venture.

Goodwill

Goodwill arising in a business combination is recognised as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Goodwill is not amortised but is reviewed for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

(a) Sale of goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

(i) the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
(ii) the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
(iii) the amount of revenue can be measured reliably;
(iv) it is probable that the economic benefits associated with the transaction will flow to the Group; and
(v) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

(b) Dividend and interest revenue

Dividend revenue from investments is recognised when the shareholder’s right to receive payment has been established (provided that the economic benefits will flow to the Group and the Company and the amount of revenue can be measured reliably).

Interest revenue is recognised when it is probable that the economic benefits will flow to the Group and the Company and the amount of revenue can be measured reliably. Interest revenue is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset’s net carrying amount on initial recognition.

(c) Rental revenue

Rental revenue from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

(d) Other income

Management fee and other income are recognised on an accrual basis.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Short-term employee benefits

Wages, salaries, paid annual leave, bonuses and social security contributions are recognised as expenses in the year in which the associated services are rendered by employees of the Group and of the Company. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by the employees that increase their entitlement to future compensated absences. Short-term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

Retirement benefit costs

Contributions to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions. The Group and the Company have no further payment obligations once these contributions have been paid.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

(a) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statements of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group’s and the Company’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(b) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that taxable profits will be available against which those deductible temporary differences, unused tax losses and unused tax credits can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group and the Company expect, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group and the Company intend to settle their current tax assets and liabilities on a net basis.

(c) Current and deferred tax for the period

Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to items that are recognised outside profit or loss (whether in other comprehensive income or directly in equity), in which case the tax is also recognised outside profit or loss.

Foreign currencies

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in Ringgit Malaysia ("RM"), which is the functional currency of the Company, and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in profit or loss in the period in which they arise except for:

(a) exchange differences arising on the retranslation of non-monetary items carried at fair value in respect of which gain and losses are recognised in other comprehensive income. For such non-monetary items, the exchange component of that gain or loss is also recognised in other comprehensive income; and

(b) exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore, forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the investment.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(a) The Group as lessor

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

(b) The Group as lessee

Assets held under finance leases are initially recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to archive a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the statement of financial position at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are performed with sufficient regularity such that the carrying amounts do not differ materially from those that would be determined using fair values at the end of the reporting period.

Any revaluation increase arising on the revaluation of such buildings is recognised in other comprehensive income, except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously expensed. A decrease in the carrying amount arising on the revaluation of such buildings is recognised in profit or loss to the extent that it exceeds the balance, if any, held in the properties revaluation reserve relating to a previous revaluation of that asset.

Depreciation on revalued properties is recognised in profit or loss. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus remaining in the properties revaluation reserve is transferred directly to retained earnings.

Freehold land is not depreciated.

All other property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method, on the following bases:

Leasehold improvement	20%
Buildings	2.22% - 5%
Leasehold flats	2.22%
Plant and machinery	10% - 33.3%
Production tools and equipment	10% - 20%
Furniture, fixtures and office equipment	10% - 33.3%
Mechanical and electrical installation	10% - 20%
Motor vehicles	20%
Road	10%

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Investment properties

Investment properties, which are properties held to earn rentals and/ or for capital appreciation (including property under construction for such purposes), are measured initially at its cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. Gains and losses arising from changes in the fair value of investment property are included in profit or loss in the period in which they arise.

Investment properties are derecognised when either they have been disposed off or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on the retirement or disposal of an investment property is recognised in profit or loss in the year of retirement or disposal.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. For a transfer from owner-occupied property to investment property, the property is accounted for in accordance with the accounting policy for property, plant and equipment up to the date of change in use.

Impairment of tangible and intangible assets excluding goodwill

At the end of each reporting period, the Group and the Company review the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, includes an appropriate portion of fixed and variable overhead expenses that have been incurred in bringing the inventories to their present location and condition. Cost is determined based on the weighted average method.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Financial instruments

Financial instruments are recognised in the statement of financial position when, and only when, the Group and the Company become a party to the contractual provisions of the financial instruments.

Where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, such financial assets are recognised and derecognised on trade date.

Financial instruments are initially measured at fair value, plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value.

Financial assets

Financial assets of the Group and the Company are classified into the following specified categories: financial assets ‘at fair value through profit or loss’ and ‘loans and receivables’. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

(a) Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at fair value through profit or loss.

(b) Financial assets at fair value through profit or loss

Financial assets are classified as at fair value through profit or loss when the financial asset is either held for trading or it is designated as at fair value through profit or loss.

A financial asset is classified as held for trading if:

(i) it has been acquired principally for the purpose of selling it in the near term; or
(ii) on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
(iii) it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at fair value through profit or loss upon initial recognition if:

(i) such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
(ii) the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group’s documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
(iii) it forms part of a contract containing one or more embedded derivatives, and FRS 139 Financial Instruments: Recognition and Measurement permits the entire combined contract (asset or liability) to be designated as at fair value through profit or loss.

Financial assets at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the ‘other gains and losses’ line item in the statements of comprehensive income.

(c) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

(d) Impairment of financial assets

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For all other financial assets, objective evidence of impairment could include:

(i) significant financial difficulty of the issuer or counterparty; or
(ii) default or delinquency in interest or principal payments; or
(iii) it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit periods of 30 to 90 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

(e) Derecognition of financial assets

The Group and the Company derecognise a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group and the Company neither transfer nor retain substantially all the risks and rewards of ownership and continue to control the transferred asset, the Group and the Company recognise their retained interest in the asset and an associated liability for amounts it may have to pay. If the Group and the Company retain substantially all the risks and rewards of ownership of a transferred financial asset, the Group and the Company continue to recognise the financial asset and also recognise a collateralised borrowing for the proceeds received.

Financial liabilities and equity instruments issued by the Group and the Company

(a) Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

(b) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group and the Company are recognised at the proceeds received, net of direct issue costs.

(c) Financial liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' or 'other financial liabilities'.

(d) Financial liabilities at fair value through profit or loss

Financial liabilities are classified as at fair value through profit or loss when the financial liability is either held for trading or it is designated as at fair value through profit or loss.

A financial liability is classified as held for trading if:

(i) it has been acquired principally for the purpose of repurchasing it in the near term; or
(ii) on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
(iii) it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at fair value through profit or loss upon initial recognition if:

(i) such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
(ii) the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
(iii) it forms part of a contract containing one or more embedded derivatives, and FRS 139 Financial Instruments: Recognition and Measurement permits the entire combined contract (asset or liability) to be designated as at fair value through profit or loss.

Financial liabilities at fair value through profit or loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the ‘other gains and losses’ line item in the statements of comprehensive income.

(e) Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

(f) Derecognition of financial liabilities

The Group and the Company derecognise financial liabilities when, and only when, the Group’s and the Company’s obligations are discharged, cancelled or they expire.

Derivative financial instruments

The Group enters into derivative financial instruments to manage its exposure to foreign exchange rate risk, including foreign exchange forward contracts. Further details of derivative financial instruments are disclosed in Note 34.

Derivatives are initially recognised at fair value at the date the derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship. The Group designates derivatives as hedges of the fair value of recognised assets or liabilities or firm commitments (fair value hedges).

A derivative with a positive fair value is recognised as a financial asset; a derivative with a negative fair value is recognised as a financial liability. A derivative is presented as a non-current asset or a noncurrent liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Treasury shares

Shares bought back are retained as treasury shares under the treasury stock method. Shares repurchased and held as treasury shares are accounted for at the cost of repurchase and set off against equity. Where such treasury shares are subsequently sold or reissued, the net consideration received is included in shareholders' equity.

Where the Company reacquires its own equity share capital, the consideration paid, including attributable transaction costs on repurchased ordinary shares of the Company that have not been cancelled, are classified as treasury shares and presented as a deduction from equity. No gain or loss is recognised in statements of comprehensive income on the sale, re-issuance or cancellation of treasury shares. When treasury shares are reissued by resale, the difference between the sales consideration and the carrying amount is recognised in equity.

Cash and cash equivalents

The Group and the Company adopt the indirect method in the preparation of the statements of cash flows.

Cash and cash equivalents comprise cash and bank balances, demand deposits which are not pledged, bank overdrafts and highly liquid investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(a) Critical judgements in applying the Group's accounting policies

In the process of applying the Group's accounting policies, the directors are of the opinion that there are no instances of application of judgement which are expected to have a significant effect on the amounts recognised in the financial statements.

(b) Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(i) Impairment of property, plant and equipment and investment properties

The Group assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable.

If there are indicators of impairment in property, plant and equipment and investment properties, the Group carries out the impairment test based on a variety of estimation including the value in use of the cash-generating units to which the property, plant and equipment and investment properties are allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

During the current financial year, the Group assessed and determined that there was no indicator of impairment for property, plant and equipment and investment properties.

(ii) Impairment of goodwill

Determining whether goodwill is impaired required an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value.

(iii) Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which those deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based on the likely timing and level of future taxable profit together with future tax planning strategies.

Assumptions about generation of future taxable profit depend on management’s estimates of future cash flows. This depends on estimates of future revenue, operating costs, capital expenditure, dividends and other capital management transactions. Judgement is also required about application of income tax legislation. These judgements and assumptions are subject to risks and uncertainty, hence there is a possibility that changes in circumstances will alter expectations, which may impact the amount of the deferred tax assets recognised in the statements of financial position.

(iv) Inventories

The Group makes an allowance for slow moving/ obsolete inventories based on an assessment of the net realisable value of the inventories. When estimating the net realisable value of inventories, management consider all of the facts relating to the inventories and the operating environment at the time the estimates are made. Where the expectation is different from the original estimate, such difference will impact the carrying value of the inventories in the period in which such estimate has been changed.

(v) Impairment of receivables

The Group assesses at each reporting date whether there is any objective evidence that a financial asset is impaired. To determine whether there is objective evidence of impairment, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. Where the expectation is different from the original estimate, such difference will impact the carrying value of the receivables in the period in which such estimate has been changed.

5. REVENUE

	The Group		The Company	
	2011 RM	2010 RM	2011 RM	2010 RM
Sale of goods	349,640,987	287,203,330	-	-

9. EMPLOYEE BENEFITS EXPENSE

Employee benefits expense recognised as an expense during the financial year is as follows:

	The Group		The Company	
	2011	2010	2011	2010
	RM	RM	RM	RM
Contribution to employees provident fund and central provident fund	1,374,232	905,599	91,020	70,218
Other employee benefits expense	32,217,531	27,480,495	2,984,292	2,018,301
	33,591,763	28,386,094	3,075,312	2,088,519

Employee benefits expense of the Group and of the Company includes directors' remuneration, salaries, bonuses, contribution to employees provident fund and central provident fund and all other employee related expenses.

Details of remuneration of directors, who are the key management personnel of the Group and of the Company, are as follows:

	The Group		The Company	
	2011	2010	2011	2010
	RM	RM	RM	RM
Contribution to employees provident fund and central provident fund	109,303	87,423	44,766	41,292
Other emoluments	2,750,304	2,163,600	2,306,236	1,749,128
	2,859,607	2,251,023	2,351,002	1,790,420

10. FINANCE COST

Interest expense for financial liabilities not classified as fair value through profit or loss is as follows:

	The Group	
	2011	2010
	RM	RM
Interest on short-term borrowing	51,513	-

11. INCOME TAX EXPENSE

Income tax recognised in profit or loss

Income tax expense comprises:

	The Group		The Company	
	2011	2010	2011	2010
	RM	RM	RM	RM
Current year:				
Current tax expense:				
Malaysian	7,959,000	4,842,000	4,010,500	3,001,000
Foreign	1,290,273	1,100,639	-	-
Deferred tax income relating to the origination and reversal of temporary differences	(19,434)	(95,495)	(450,000)	-
	9,229,839	5,847,144	3,560,500	3,001,000
Adjustments recognised in the current year in relation to tax expense of prior years:				
Current tax:				
Malaysian	91,669	139,390	(112,024)	-
Deferred tax	(372,000)	(517,950)	-	-
Total tax expense	8,949,508	5,468,584	3,448,476	3,001,000

Malaysian income tax is calculated at the statutory tax rate of 25% (2010: 25%) of the estimated taxable profit for the year. Taxation for other jurisdictions are calculated at the rates prevailing in the relevant jurisdictions.

The estimated tax saving arising from utilisation of previously unused tax losses that is used to reduce current tax expense of the Group and of the Company is RM370,000 (2010: RM135,000).

The total tax expense for the year can be reconciled to the accounting profit as follows:

	The Group		The Company	
	2011 RM	2010 RM	2011 RM	2010 RM
Profit before tax	47,026,003	31,131,831	17,014,464	12,668,749
Tax expense calculated using the Malaysian income tax rate of 25% (2010: 25%)	11,757,000	7,783,000	4,254,000	3,167,000
Effect of expenses that are not deductible in determining taxable profit	236,839	93,344	37,500	33,000
Effect of revenue that is exempt from taxation	(2,000)	(200)	-	-
Effect of tax exempt income on:				
Pioneer business	(1,355,000)	(1,164,000)	-	-
Promoted business	(1,092,000)	-	-	-
Effect of different tax rates of subsidiaries operating in other jurisdictions	391,000	(662,000)	-	-
Effect of unused tax losses and tax offsets not recognised as deferred tax assets	25,000	2,000	-	-
Recognition of deferred tax assets not recognised previously:				
Unused tax losses	(370,000)	-	(370,000)	-
Other temporary differences	(361,000)	-	(361,000)	-
Effect of deferred tax assets not recognised previously:				
Unused tax losses	-	(135,000)	-	(135,000)
Other temporary differences	-	(70,000)	-	(64,000)
	9,229,839	5,847,144	3,560,500	3,001,000
Adjustments recognised in the current year in relation to tax expense of prior years	(280,331)	(378,560)	(112,024)	-
Income tax expense recognised in profit or loss	8,949,508	5,468,584	3,448,476	3,001,000

A subsidiary in Malaysia has been granted pioneer status under the Promotion of Investment Act, 1986 for the manufacturing of fixed and handheld barcode readers and its related sub-assembly. Under this incentive, 70% of the subsidiary's statutory income from the manufacturing of fixed and handheld barcode readers is exempted from income tax for a period of five years commencing February 2, 2009.

Another subsidiary in Thailand is enjoying investment promotion in manufacturing of certain goods according to the Investment Promotion Act of Thailand B.E. 1977. Under this incentive, the subsidiary is entitled to full corporate tax exemption on certain income, tax reduction at 15% on certain income, and full corporate tax exemption on certain income not exceeding the capital investment (excluding land), as well as other rights and privileges as prescribed by the Board of Investment. For income which is derived from Non-Board of Investment operations, it is liable for corporate tax at 30%.

Income tax recognised in other comprehensive income:

	The Group	
	2011	**2010**
	RM	**RM**
Deferred tax		
Arising on income and expense recognised in other comprehensive income:		
Properties revaluation	-	735,561

As of December 31, 2011, the Group and the Company have unused tax losses of approximately RM869,000 (2010: RM2,294,000) and RM199,000 (2010: RM1,706,000) respectively, which are available for set off against future taxable income. The unused tax losses are subject to agreement by the relevant tax authorities.

12. PROFIT FOR THE YEAR

Profit for the year has been arrived at:

The freehold land and a building of the Group with a total carrying value of RM1,056,672 (2010: RM1,172,669) were revalued by the directors on November 30, 2010. The valuations were based on directors' valuation by reference to market evidence of transaction prices for similar properties.

The other buildings and leasehold flats of the Group with a total carrying value of RM22,442,252 (2010: RM23,295,316) were revalued by the directors on November 30, 2010 based on valuations carried out by an independent firm of professional valuer. The valuations were based on market value using comparison method of valuation.

Had the buildings and leasehold flats been carried at historical cost, the carrying amount of the revalued assets would have been as follows:

	The Group	
	2011	**2010**
	RM	**RM**
Cost:		
Buildings	19,431,450	19,431,450
Leasehold flats	1,472,000	1,472,000
	20,903,450	20,903,450
Accumulated depreciation:		
Buildings	8,168,307	7,597,711
Leasehold flats	268,878	254,009
	(8,437,185)	(7,851,720)
Carrying amount	12,466,265	13,051,730

As of December 31, 2011, certain of the Group's freehold land and building with a total carrying value of RM1,056,672 (2010: RM1,172,669) are charged to a bank as securities for credit facilities granted to the Group as mentioned in Note 31.

15. INVESTMENT PROPERTIES

	The Group	
	2011	**2010**
	RM	**RM**
At fair value:		
Balance at beginning of year	27,442,310	18,291,280
Acquisitions during the year	-	8,397,087
Additions through subsequent expenditure	-	556,238
(Loss)/ gain on fair value adjustments at end of year	(63,106)	208,071
Effect on foreign currency exchange differences	(43,645)	(10,366)
Balance at end of year	27,335,559	27,442,310

The investment properties as of December 31, 2011 are as follows:

	The Group	
	2011	**2010**
	RM	**RM**
Freehold land and buildings	1,910,559	2,020,223
Short leasehold land and buildings	25,425,000	25,422,087
	27,335,559	27,442,310

The fair value of the Group's investment properties of freehold land and buildings of RM1,910,559 (2010: RM2,020,223) as of December 31, 2011 was determined by the directors by reference to market evidence of transaction prices for similar properties.

The fair value of certain of the Group's investment properties of short leasehold land and buildings with a total carrying value of RM25,425,000 (2010: RM17,025,000) as of December 31, 2011 has been arrived at on the basis of a valuation carried out at that date by an independent valuer which have appropriate qualifications and recent experience in the valuation of properties in the relevant locations. The valuation was arrived at by reference to market evidence of transaction prices for similar properties.

No valuation was carried out by independent valuer at end of the previous financial year on the Group's investment properties of a short leasehold land and building acquired during the last quarter of the previous financial year of RM8,397,087 as the directors were of the opinion that the carrying amount of such investment properties approximates their fair value as of December 31, 2010.

The rental income earned by the Group from its investment properties is RM2,498,073 (2010: RM2,237,024). Direct operating expenses incurred on the investment properties during the financial year amounted to RM656,570 (2010: RM270,146).

As of December 31, 2011, the unexpired lease periods of the short leasehold land of the Group which are included under investment properties are 38 and 39 years.

As of December 31, 2011, certain of the Group's investment properties with a total carrying value of RM1,910,559 (2010: RM2,020,223) are charged to a bank as securities for credit facilities granted to the Group as mentioned in Note 31.

16. PREPAID LEASE PAYMENTS ON LEASEHOLD LAND

	The Group	
	2011	**2010**
	RM	**RM**
At beginning of year	12,743,872	8,369,999
Acquisition during the year	-	4,599,468
Amortisation during the year	(330,655)	(225,595)
At end of year	12,413,217	12,743,872

The prepaid lease payments on leasehold land as of December 31, 2011 are as follows:

	The Group	
	2011	**2010**
	RM	**RM**
Short leasehold land	12,413,217	12,743,872

As of December 31, 2011, the unexpired lease period of the short leasehold land of the Group which are included under prepaid lease payments on leasehold land is 38 years.

17. GOODWILL

	The Group	
	2011	**2010**
	RM	**RM**
At cost	1,721,665	1,721,665

At the end of the reporting period, the Group assessed the recoverable amount of goodwill, and determined that there was no impairment on goodwill need to be recognised.

Goodwill has been allocated for impairment testing purposes to manufacturing activities of a foreign subsidiary.

The recoverable amount of this cash-generating unit is determined based on a value in use calculation which uses cash flow projections based on financial budgets approved by the directors covering a period of 3 years with an estimated growth rate of 2% (2010: 2%), and a discount rate of 9% (2010: 9%) per annum.

Cash flow projections during the budget period are based on the same expected gross margins and raw materials price inflation throughout the budget period. The directors believe that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the cash-generating unit.

18. INVESTMENTS IN SUBSIDIARIES

	The Company	
	2011	**2010**
	RM	**RM**
Unquoted shares, at cost	79,918,805	79,918,805

The subsidiaries are as follows:

	Place of incorporation	Principal activities	Percentage of ownership 2011	2010
Direct holdings				
Pan-International Electronics (Malaysia) Sdn. Bhd.	Malaysia	Contract electronic manufacturing, cable assemblies and PCB assemblies and manufacture of fixed and handheld barcode readers and its related sub-assembly	100%	100%
Pan International Electronics (Thailand) Co., Ltd [a]	Thailand	Manufacturing and providing of cable and wireharness to computer, communication and consumer electronic industry	100%	100%
Pan-International Wire & Cable (Malaysia) Sdn. Bhd.	Malaysia	Manufacture of cables and wires for electronic devices and cable moulding compounds	100%	100%
Indirect holdings

	943,603	3,249,070	-	2,378,000

21. INVENTORIES

	The Group	
	2011 RM	2010 RM
Raw materials	19,505,798	12,409,085
Work-in-progress	11,069,550	9,704,905
Finished goods	11,758,192	4,261,159
Goods-in-transit	148,560	698,273
	42,482,100	27,073,422

The cost of inventories recognised as an expense by the Group during the financial year was RM301,122,426 (2010: RM246,126,138).

22. TRADE AND OTHER RECEIVABLES

	The Group		The Company	
	2011	2010	2011	2010
	RM	RM	RM	RM
Trade receivables	105,743,047	72,596,377	-	-
Less: Allowance for doubtful debts	(2,215,422)	(1,276,279)	-	-
	103,527,625	71,320,098	-	-
Amount owing by ultimate holding company	1,738	879	-	-
Amount owing by subsidiaries	-	-	81,047,000	90,460,000
Amount owing by jointly controlled entity	-	125,000	-	125,000
Other receivables	400,666	99,588	2,722	516
	103,930,029	71,545,565	81,049,722	90,585,516

The currency exposure profile of trade and other receivables is as follows:

	The Group		The Company	
	2011	2010	2011	2010
	RM	RM	RM	RM
United States Dollar	84,726,864	56,129,572	-	-
Ringgit Malaysia	9,331,657	7,958,649	81,049,722	90,585,516
Euro	8,703,078	4,498,364	-	-
Thai Baht	1,034,797	985,784	-	-
Singapore Dollar	133,633	1,973,196	-	-
	103,930,029	71,545,565	81,049,722	90,585,516

Trade receivables disclosed above are classified as loans and receivables and are therefore measured at amortised cost.

The average credit periods granted to trade receivables on sale of goods range from 30 to 90 days (2010: 30 to 90 days). No interest is charged on trade receivables outstanding balance. Allowance for doubtful debts are recognised against trade receivables over credit period based on estimated irrecoverable amounts determined by reference to past default experience of the counterparty and an analysis of the counterparty’s current financial position.

Trade receivables disclosed above include amounts (see below for aged analysis) that are past due at the end of the reporting period but against which the Group has not recognised an allowance for doubtful receivables because there has not been a significant change in credit quality and the amounts are still considered recoverable. The Group does not hold any collateral or other credit enhancements over these balances nor does it have a legal right of offset against any amounts owed by the Group to the counterparty.

Ageing of past due but not impaired trade receivables:

	The Group	
	2011	**2010**
	RM	**RM**
1 to 30 days	5,657,597	-
31 to 60 days	4,757,999	16,581,921
61 to 90 days	1,111,401	813,259
More than 120 days	-	16,751
Total	11,526,997	17,411,931

Trade receivables that are neither past due nor impaired are creditworthy debtors with good payment records with the Group.

Movement in the allowance for doubtful debts is as follows:

	The Group	
	2011	**2010**
	RM	**RM**
Balance at beginning of the year	1,276,279	1,331,818
Impairment losses recognised on trade receivables	1,090,774	86,567
Impairment losses reversed	(138,817)	(140,478)
Foreign exchange translation on gains and losses	(12,814)	(1,628)
Balance at end of the year	2,215,422	1,276,279

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period.

The allowance for doubtful debts on trade receivables are made for individually impaired receivables, relating to entities that are in significant financial difficulties and have defaulted on payments. The Group does not hold any collateral over these balances.

Ageing of impaired trade receivables:

	The Group	
	2011	**2010**
	RM	**RM**
1 to 30 days	12,895	-
31 to 60 days	-	245,432
61 to 90 days	288,576	261,780
91 to 120 days	180,575	37,644
More than 120 days	1,733,376	731,423
Total	2,215,422	1,276,279

The amount owing by ultimate holding company arose mainly from trade transactions. The average credit period granted to ultimate holding company is 90 days (2010: 90 days). No interest is charged on amount owing by ultimate holding company.

The amount owing by subsidiaries are as follows:

	The Company	
	2011	2010
	RM	RM
Pan-International Electronics (Malaysia) Sdn. Bhd.	71,795,000	73,028,000
Pan-International Wire & Cable (Malaysia) Sdn. Bhd.	9,252,000	17,432,000
	81,047,000	90,460,000

The amount owing by subsidiaries arose mainly from management fee receivable and unsecured advances which are interest free and repayable on demand.

The amount owing by jointly controlled entity, Infra-Info Telecommunications Sdn. Bhd. arose mainly from unsecured advances which are interest free and repayable on demand.

23. OTHER FINANCIAL ASSETS

	RM	RM	RM	RM
Financial assets carried at fair value through profit or loss:				
Investment in Islamic cash fund	509,302	-	509,302	-
Derivative financial instrument:				
Foreign currency forward contracts	-	200,300	-	-
	509,302	200,300	509,302	-

The Group used foreign currency forward contracts to manage some of the transaction exposure. These contracts were not designated as cash flow or fair value hedges and were entered into for periods consistent with currency transaction exposure and fair value changes exposure. Such derivatives did not qualify for hedge accounting.

Foreign currency forward contracts were used to hedge the Group’s exposure to foreign exchange risk. Foreign currency forward contracts were measured using quoted forward exchange rates and yield curves derived from swap points matching maturities of the contracts.

24. OTHER ASSETS

	The Group		The Company	
	2011	2010	2011	2010
	RM	RM	RM	RM
Deposits	154,452	1,036,353	2,000	2,000
Prepayments	1,027,031	1,064,497	13,844	16,076
	1,181,483	2,100,850	15,844	18,076

25. SHORT-TERM DEPOSITS WITH LICENSED BANKS

The currency exposure profile of short-term deposits with licensed banks is as follows:

	The Group		The Company	
	2011 RM	2010 RM	2011 RM	2010 RM
Ringgit Malaysia	55,410,345	23,119,531	6,721,028	1,451,000
Thai Baht	28,638,288	23,039,603	-	-
United States Dollar	1,732,500	29,035,850	-	-
	85,781,133	75,194,984	6,721,028	1,451,000

The short-term deposits of the Group carry interests at rates ranging from 0.18% to 3.5% (2010: 0.2% to 2.85%) per annum and will mature within January 2012 to July 2012. The short-term deposits of the Company carry interests at rates ranging from 2.5% to 3.1% (2010: 2.45% to 2.85%) per annum and will mature in January 2012 and July 2012.

26. CASH AND BANK BALANCES

The currency exposure profile of cash and bank balances is as follows:

	The Group		The Company	
	2011 RM	2010 RM	2011 RM	2010 RM
United States Dollar	10,145,412	15,309,263	-	-
Thai Baht	4,060,768	7,527,589	-	-
Ringgit Malaysia	3,434,807	4,742,775	78,526	25,548
Euro	408,621	163,861	-	-
Japanese Yen	155,446	10,200	-	-
Singapore Dollar	86,502	222,398	-	-
Pound Sterling	1,697	2,028	-	-
	18,293,253	27,978,114	78,526	25,548

As of December 31, 2011, certain bank balances of the Group with a total carrying value of RM36,036 (2010: RM57,288) are pledged as guarantee for the issuance of letter of guarantee by a bank for a foreign subsidiary's installation of electrical transformer and guarantee for the performance.

27. SHARE CAPITAL

	The Company	
	2011 RM	2010 RM
Authorised:		
100,000,000 shares of RM1 each	100,000,000	100,000,000
Issued and fully paid:		
64,007,000 ordinary shares of RM1 each	64,007,000	64,007,000

At an Annual General Meeting held on May 20, 2011, the Company's shareholders approved the Company's plan to repurchase its own shares. Under the share buy-back exercise, the Company is authorised to purchase up to maximum of 10% of the total issued and paid-up share capital. The share buy-back exercise is undertaken to enhance the value of the Company and is applied in the best interests of the Company and its shareholders.

During the financial year, the Company repurchased 600 (2010: 14,600) of its issued and fully paid-up ordinary shares from the open market. The average price paid for the shares repurchased was approximately RM3.97 (2010: RM4.06) per ordinary share. The repurchase transactions were financed by internally generated funds. The shares repurchased are being held as treasury shares in accordance with the requirement of Section 67A of the Companies Act, 1965. The Company has the right to reissue these shares at a later date. As treasury shares, the rights attached as to voting, dividends and participation in other distribution are suspended.

As of December 31, 2011, out of the total 64,007,000 (2010: 64,007,000) issued and paid-up share capital, 27,300 (2010: 26,700) are held as treasury shares. Hence, the number of outstanding ordinary shares in issue and fully paid-up is 63,979,700 (2010: 63,980,300) ordinary shares of RM1 each.

28. RESERVES

	The Group		**The Company**	
	2011 RM	**2010 RM**	**2011 RM**	**2010 RM**
Non-distributable:				
Share premium	18,993,049	18,993,049	18,993,049	18,993,049
Properties revaluation reserve	12,596,541	12,990,026	-	-
Foreign currency translation reserve	620,949	1,398,846	-	-
Merger reserve	-	-	16,408,221	16,408,221
	32,210,539	33,381,921	35,401,270	35,401,270

The share premium arose from the issue of shares at premium and sale of treasury shares, net of share issue expenses.

The movement in properties revaluation reserve is as follows:

	The Group	
	2011 RM	**2010 RM**
Balance at beginning of year	12,990,026	11,093,502
Increase arising on revaluation of properties	-	2,942,242
Deferred tax liabilities arising on revaluation	-	(735,561)
Transferred to retained earnings	(393,485)	(310,157)
Balance at end of year	12,596,541	12,990,026

The properties revaluation reserve arises on the revaluation of land and buildings.

The movement in foreign currency translation reserve is as follows:

	The Group	
	2011	2010
	RM	RM
Balance at beginning of year	1,398,846	1,529,259
Exchange differences arising on translating the net assets of foreign operations	(777,897)	(130,413)
Balance at end of year	620,949	1,398,846

Exchange differences relating to the translation of the net assets of the Group's foreign operations from their functional currencies to the Group's presentation currency (Ringgit Malaysia) are recognised directly in other comprehensive income and accumulated in the foreign currency translation reserve.

The merger reserve represents the difference between the cost of investments in subsidiaries and the nominal value of shares issued as consideration plus cash consideration.

29. RETAINED EARNINGS

In accordance with the Finance Act 2007, the single tier income tax system became effective from the year of assessment 2008. Under this system, tax on a company's profit is a final tax, and dividends paid are exempted from tax in the hands of the shareholders. Unlike the previous full imputation system, the recipient of the dividend would no longer be able to claim any tax credit.

Companies with Section 108 tax credit are given an irrevocable option to disregard the tax credit or to continue to utilise such tax credits until the tax credits are fully utilised or upon the expiry of the 6 years transitional period on December 31, 2013, whichever is earlier. During the transitional period, the Section 108 tax credit will be reduced by any tax credits utilised and any tax paid will not be added to this account.

As of the reporting date, the Company has not elected for the irrevocable option to disregard the Section 108 tax credits. Accordingly, subject to the agreement of the Inland Revenue Board, the Company has Section 108 tax credit and the balance in the tax exempt account to frank dividends of approximately RM58,007,000 out of its retained earnings, a distributable reserve.

30. TRADE AND OTHER PAYABLES

	The Group		The Company	
	2011 RM	2010 RM	2011 RM	2010 RM
Trade payables	36,874,277	27,881,025	-	-
Amount owing to ultimate holding company	5,280	11,501	-	-
Amount owing to a director	-	152	-	152
Other payables	7,924,838	2,112,050	-	-
Accrued expenses	17,092,649	13,582,885	3,189,688	2,460,007
	61,897,044	43,587,613	3,189,688	2,460,159

The currency exposure profile of trade and other payables is as follows:

	The Group		The Company	
	2011 RM	2010 RM	2011 RM	2010 RM
United States Dollar	34,085,894	17,129,834	-	-
Ringgit Malaysia	24,552,730	20,599,838	3,189,688	2,460,159
Thai Baht	2,476,822	3,153,577	-	-
Euro	526,365	2,348,826	-	-
Singapore Dollar	129,135	121,491	-	-
Japanese Yen	125,142	230,903	-	-
Pound Sterling	956	3,144	-	-
	61,897,044	43,587,613	3,189,688	2,460,159

Included in trade payables as of December 31, 2011 is an amount of RM809,952 (2010: RM14,962) owing to Hon Hai Precision Industries Co. Ltd., a shareholder of the Company's ultimate holding company.

Trade payables comprise amounts outstanding for trade purchases. The credit periods granted to the Group for trade purchases range from 10 to 90 days (2010: 10 to 90 days). No interest is charged on trade payables outstanding balance. The Group has financial risk management policies in place to ensure that all payables are paid within the pre-agreed credit terms.

The amount owing to ultimate holding company arose mainly from trade transactions. The credit period granted to the Group for trade transactions with ultimate holding company is 30 days (2010: 30 days). No interest is charged on amount owing to ultimate holding company.

The amount owing to a director, Mr. Cheung Ho Leung represents director's remuneration payable.

Other payables comprise mainly amounts outstanding for ongoing costs.

31. BORROWING

	The Group	
	2011	2010
	RM	RM
Unsecured:		
Foreign currency trade loans	20,477,306	-

The foreign currency trade loans are denominated in United States Dollar and bear interests at rates of 0.4% and 0.5% (2010: Nil) per annum above the lending banks' cost of funds. The effective interest rates per annum of foreign currency trade loans as of December 31, 2011 range from 1.47% to 1.9% (2010: Nil).

The foreign currency trade loans as of December 31, 2011 are repayable within January 2012 to March 2012.

As of December 31, 2011, the Group has unused bank overdrafts and other credit facilities as follows:

	The Group	
	2011	2010
	RM	RM
Secured	1,001,000	1,023,000
Unsecured	16,193,970	18,650,000
	17,194,970	19,673,000

The unused bank overdrafts and other credit facilities bear interests at rates ranging from 0.5% to 1% (2010: 0.4% to 1.5%) per annum above the lending banks' base lending rates and a fixed rate of 7.5% (2010: 6.63%) per annum.

The secured unused credit facilities are secured by a charge over a subsidiary's freehold land, buildings and investment properties. The unsecured unused credit facilities are guaranteed by the Company for RM47,308,000 (2010: RM40,950,000).

32. DIVIDENDS

	The Group and the Company	
	2011	2010
	RM	RM
Declared in respect of financial year ended December 31, 2010:		
Special dividend of 23 sen gross per ordinary share, less tax	11,036,602	-
First and final dividend of 12 sen gross per ordinary share, less tax	5,758,227	-
Declared in respect of financial year ended December 31, 2009:		
Special dividend of 23 sen gross per ordinary share, less tax	-	11,039,120
First and final dividend of 12 sen gross per ordinary share, less tax	-	5,759,540
	16,794,829	16,798,660

33. CASH AND CASH EQUIVALENTS

Cash and cash equivalents at end of year comprise the following:

	The Group		The Company	
	2011	2010	2011	2010
	RM	RM	RM	RM
Short-term deposits with licensed banks	85,781,133	75,194,984	6,721,028	1,451,000
Cash and bank balances	18,293,253	27,978,114	78,526	25,548
	104,074,386	103,173,098	6,799,554	1,476,548
Less: Bank balances pledged as security	(36,036)	(57,288)	-	-
	104,038,350	103,115,810	6,799,554	1,476,548

34. FINANCIAL INSTRUMENTS

a. Capital risk management

The Group’s objectives when managing capital are to safeguard the Group’s ability to continue as a going concern and to maintain an optimal capital structure so as to maximise shareholder value. In order to maintain or achieve an optimal capital structure, the Group may adjust the amount of dividend payment and buy back issued shares. Management monitors capital based on ability of the Group to generate sustainable profits and availability of retained earnings for dividend payments to shareholders. The Group’s overall strategy remains unchanged from 2010.

Under the requirement of Bursa Malaysia Practice Note No. 17/2005, the Company is required to maintain a consolidated shareholders' equity equal to or not less than the 25 percent of the issued and paid-up capital (excluding treasury shares) and such shareholders’ equity is not less than RM40 million. The Company has complied with this requirement.

b. Financial risk management objectives

The operations of the Group are subject to a variety of financial risks, including market risk, foreign currency risk, credit risk, interest rate risk, liquidity risk and cash flow risk. The Group has formulated a financial risk management framework whose principal objective is to minimise the Group's exposure to risks and/ or costs associated with the financing, investing and operating activities of the Group.

Various risk management policies are made and approved by the Board for observation in the day-to-day operations for the controlling and management of the risks associated with financial instruments.

The Group seeks to minimise the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Group's policies approved by the board of directors. The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

i. Market risk management

The Group has in place policies to manage the Group's exposures to fluctuation in the prices of the raw materials used in the operations.

There has been no change to the Group's exposure to market risks or the manner in which these risks are managed and measured.

ii. Foreign currency risk management

The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates. The Group enters into derivative financial instruments to manage its exposure to foreign currency risk, including forward foreign exchange contracts to hedge the exchange rate risk arising on foreign currency sales.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	The Group	
	2011	**2010**
	RM	**RM**
Assets		
United States Dollar	96,604,776	100,474,685
Thai Baht	33,733,853	31,552,976
Euro	9,111,699	4,662,225
Singapore Dollar	220,135	2,195,594
Japanese Yen	155,446	10,200
Pound Sterling	1,697	2,028
Liabilities		
United States Dollar	54,563,200	17,129,834
Thai Baht	2,476,822	3,153,577
Euro	526,365	2,348,826
Singapore Dollar	129,135	121,491
Japanese Yen	125,142	230,903
Pound Sterling	956	3,144

The following table details the Group's sensitivity to a 10% increase and decrease in the RM against the relevant foreign currencies. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. A positive number below indicates an increase in profit where the RM strengthens 10% against the relevant currency. For a 10% weakening of the RM against the relevant currency, there would be a comparable impact on the profit, and the balances below would be negative.

	The Group	
	2011	**2010**
	RM	**RM**
Impact on profit or loss:		
United States Dollar	4,204,158	8,334,486
Thai Baht	3,125,703	2,839,939
Euro	858,533	231,340
Singapore Dollar	9,100	207,415
Japanese Yen	3,030	(22,070)
Pound Sterling	74	(112)

iii. Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties, as a means of mitigating the risk of financial loss from defaults. The Group uses its own trading records to rate its major customers. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

At the reporting date, approximately 62% (2010: 51%) of the Group's trade receivables were due from a major customer and its related companies, and approximately 9% (2010: 8%) of the Group's trade receivables were due from another major customer and its related companies. Apart from these two major customers and its related companies, the Group does not have significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The Group defines counterparties as having similar characteristics if they are related entities. Concentration of credit risk to any other counterparty did not exceed 9% (2010: 8%) of gross trade receivables at the end of reporting date.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are reputable banks.

The carrying amounts of financial assets recognised in the financial statements, which is net of impairment losses, represents the Group's maximum exposure to credit risk.

iv. Interest rate risk management

The Group's exposure to changes in interest rates relates primarily to the Group's short-term deposits with licensed banks. It has no significant interest-bearing financial assets or liabilities other than the short-term deposits.

No sensitivity analysis prepared as the Group does not expect any material effect on the Group's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of reporting period.

v. Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. Note 31 sets out details of additional undrawn facilities that the Group has at its disposal to further reduce liquidity risk.

vi. Cash flow risk management

The Group reviews its cash flow position regularly to manage its exposures to fluctuations in future cash flows associated with its monetary financial instruments.

c. Forward foreign currency contracts

It is the policy of the Group to enter into forward foreign exchange contracts to cover specific foreign currency payments and receipts. The Group also enters into forward foreign exchange contracts to manage the risk associated with anticipated sales and purchase transactions. Basis adjustments are made to the carrying amounts of non-financial hedged items when the anticipated sale or purchase transaction takes place.

The following table details the foreign currency forward contracts outstanding as at the end of the reporting date:

The Group

Outstanding contract	Average exchange rate	Foreign currency USD	Contract value RM	Fair value RM
2010:				
Sell USD				
Less than 3 months	3.17 - 3.22	1,700,000	5,411,500	200,300

d. Fair value of financial assets and liabilities

The fair value of financial assets carried at fair value through profit or loss is set out in Note 23.

The directors consider that the carrying amounts of financial assets and financial liabilities recognised at amortised cost in the financial statements approximate their fair values.

The fair value of contingent liability in respect of corporate guarantee given by the Company to local banks is RM20,477,306 (2010: Nil). This fair value is determined based on the amount that would be payable to the banks for credit facilities granted to and utilised by the subsidiary at the reporting date.

35. RELATED PARTY TRANSACTIONS

Significant transactions between the Group and the Company with related parties during the financial year were as follows:

	The Group		The Company	
	2011	2010	2011	2010
	RM	RM	RM	RM
With ultimate holding company:				
Purchase of raw materials	22,119	22,927	-	-
Inspection fee paid	4,809	5,250	-	-
Sale of finished goods	3,040	879	-	-
Purchase of sundry items	-	306	-	-
With subsidiaries:				
Pan-International Electronics (Malaysia) Sdn. Bhd.				
Management fee received	-	-	1,740,000	1,740,000
Pan-International Wire & Cable (Malaysia) Sdn. Bhd.				
Management fee received	-	-	720,000	720,000
With jointly controlled entity:				
Infra-Info Telecommunications Sdn. Bhd.				
Telecommunication fee paid	8,796	-	-	-
With another related party:				
Hon Hai Precision Industries Co. Ltd.*				
Purchase of raw materials	1,726,812	14,962	-	-

* A shareholder of the Company's ultimate holding company.

36. OPERATING LEASE ARRANGEMENTS

The Group has entered into operating lease agreements to lease out its investment properties. The future minimum lease payments receivable under operating lease of the Group's short leasehold land and buildings contracted for as of the end of the reporting period but not recognised as receivables, are as follows:

	The Group	
	2011	2010
	RM	RM
Not later than one year	1,339,164	1,599,468
Later than one year and not later than five years	668,378	1,759,662
	2,007,542	3,359,130

The Group has entered into operating lease agreements for the use of premises and office equipment. The future aggregate minimum lease payments under operating leases contracted for as of the end of the reporting period but not recognised as liabilities are as follows:

	The Group	
	2011	**2010**
	RM	**RM**
Not later than one year	97,720	112,290
Later than one year and not later than five years	29,930	44,150
	127,650	156,440

37. CAPITAL COMMITMENTS

As of December 31, 2011, the Group has the following commitments in respect of capital expenditure on property, plant and equipment:

	The Group	
	2011	**2010**
	RM	**RM**
Approved but not contracted for	-	5,372,240

38. CONTINGENT LIABILITIES

	The Company	
	2011	**2010**
	RM	**RM**
Unsecured:		
Corporate guarantees given by the Company to local banks for credit facilities granted to a subsidiary	20,477,306	-

39. SUBSEQUENT EVENT

Subsequent to December 31, 2011, a subsidiary entered into a contract with a third party for the construction of factory building for a contract sum of RM4,640,597.

40. SEGMENT INFORMATION

Products and services from which reportable segments derive their revenue

Information reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance focuses on types of goods or services delivered or provided. The Group’s reportable segments under FRS 8 Operating Segments are therefore as follows:

a. manufacturing of industrial products (includes cables and wires for electronic devices, cable moulding compounds and PCB assemblies, cable and wireharness to computer, communication, consumer electronic industry and cable assemblies);
b. trading of electrical products (includes peripheral products of computers, telecommunication, consumer electronics and cable assembly products); and
c. investment holdings.

Segment revenue and results

The following is an analysis of the Group's revenue and results by reportable segments:

The Group

	Manufacturing of industrial products RM	**Trading of electrical products RM**	**Investment holdings RM**	**Eliminations RM**	**Consolidated RM**
2011:					
Revenue					
External revenue	347,308,757	2,332,230	8,716	-	349,649,703

Results					
Segment profit	31,311,546	44,799	12,380,171	(13,310,004)	30,426,512
Investment revenue					3,473,695
Other gains and losses					(3,140,358)
Share of profits of jointly controlled entity					371,982
Profit before tax					31,131,831
Income tax expense					(5,468,584)
Profit for the year					25,663,247

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 3. Segment profit/ loss represents the profit earned/ loss suffered by each segment without investment revenue, other gains and losses, finance cost and income tax expense. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

41. SUPPLEMENTARY INFORMATION – DISCLOSURE ON REALISED AND UNREALISED PROFITS/ LOSSES

On March 25, 2010, Bursa Malaysia Securities Berhad issued a directive to all listed issuers pursuant to Paragraphs 2.06 and 2.23 of the Bursa Securities Main Market Listing Requirements. The directive requires all listed issuers to disclose the breakdown of the unappropriated profits or accumulated losses as of the end of the reporting period into realised and unrealised profits or losses.

On December 20, 2010, Bursa Malaysia Securities Berhad further issued guidance on the disclosure and the prescribed format required.

The breakdown of the retained earnings of the Group and of the Company as of December 31, 2011 into realised and unrealised amounts, pursuant to the directive, is as follows:

	The Group		**The Company**	
	2011	**2010**	**2011**	**2010**
	RM	**RM**	**RM**	**RM**
Total retained earnings of the Company and its subsidiaries				
Realised	193,238,371	172,758,717	66,949,158	70,628,567
Unrealised	6,224,343	4,171,422	450,568	-
	199,462,714	176,930,139	67,399,726	70,628,567
Total share of retained earnings of jointly controlled entity				
Realised	99,883	346,982	-	-
Unrealised	-	-	-	-
	99,883	346,982	-	-
Less: Consolidation adjustments	(41,691,325)	(41,081,000)	-	-
Total retained earnings as per statements of financial position	157,871,272	136,196,121	67,399,726	70,628,567

The determination of realised and unrealised profits or losses is based on Guidance of Special Matter No. 1 “Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Securities Listing Requirements” as issued by the Malaysian Institute of Accountants on December 20, 2010. A charge or a credit to the profit or loss of a legal entity is deemed realised when it is resulted from the consumption of resource of all types and form, regardless of whether it is consumed in the ordinary course of business or otherwise. A resource may be consumed through sale or use. Where a credit or a charge to the profit or loss upon initial recognition or subsequent measurement of an asset or a liability is not attributed to consumption of resource, such credit or charge should not be deemed as realised until the consumption of resource could be demonstrated.

The supplementary information have been made solely for complying with the disclosure requirements stipulated in the directive of Bursa Malaysia Securities Berhad and is not made for any other purposes.
